

Electronic Acreage Reporting

Acreage Report

- To qualify for Federal Farm Programs, a grower-produced acreage report is required to be filed with the Farm Service Agency.
- 98% of acres participate in Federal Farm Programs
- 2.5M reports filed annually

“In the next five years, 95% of acreage reports will be filed electronically.” – USDA

A Single Digital Report

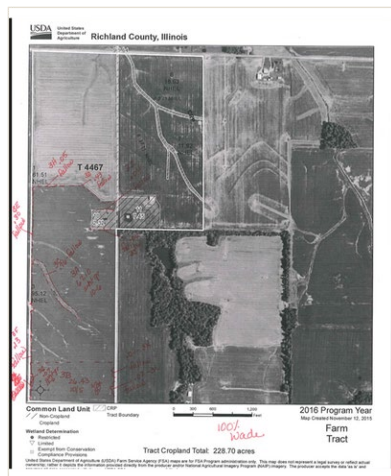

MyAgData is a SaaS platform for providing high quality data reporting. Empowering growers and commercial sellers to utilize their data to work for them by leveraging core agricultural technology to remove regulatory and compliance burden and harness efficiency.

MyAgData & USDA: Transforming The Reporting Process

The farm of the future isn't just about growing crops. Compliance, efficiency and market access will be won by those who put their data to work.

Current manual process for a 1,500 acre farm

12+ hours

16+ steps

MyAgData electronic reporting process for a 1,500 acre farm

1 hours

8 steps

The TurboTax designed specifically for farmers

More than 12 hours

Increase Actual Production History (APH)

A 1,500 acre grower boosted their **APH by 7%**

What do Farmers have to Say?

2,700 Acre Grower in Missouri

"Reporting actual acres using my precision ag data saves me money – 10% difference from my planted acres versus CLU boundaries."

**Rance Daniels – Daniels
Farm Partnership**

41,000 Acre Grower in Iowa

"MyAgData is a great tool to help speed up and simplify the acreage reporting process while improving accuracy and simultaneously saving premium dollars on over-reported acres."

**Kristin Rhea – Rhea Agency,
TX + Iowa Grower**

26,000 Acre Grower in Minnesota

"The MyAgData system allows me to import from multiple platforms, report to multiple counties at one time for multiple crops.

I normally have to spend 3 weeks to complete the acreage report at the FSA offices and another week for to get the same information to my agent.

I completed the acreage report in MyAgData and it took me about two hours, so a huge time saving!"

**Dennis Pap - Michael
Stamer Farms**

2,700 Acre Grower in North Carolina

"I have always found the acreage reporting process to be painful and ripe for streamlining. It's 2023 and there must be a better way. I saw an ad in Progressive Farmer about MyAgData and electronic acreage reporting. This is absolutely worth a try."

**John Fleming –
Fleming Brothers Farms LLC**
